

LEVEL 2 PERFORMANCE TRAINING

Level 2 Advanced Driver Training is the follow-on from Level 1 Training and part of Driver Risk Management's enhanced Driving Program (Level 1 and 2).

Suitable for individuals with prior Performance Driving experience wishing to further develop their skills or gain exposure to more techniques and improve their capabilities. Training is suitable for individuals who have previously completed Level 1 Performance Training with Driver Risk Management.

The full-day, course is conducted at the Driver Risk Management facility, located at 16 Grogan Road Perth Airport, Airport, WA and utilises various state-of-the-art driving facilities available onsite.

Performance Driver Training is delivered by a team of experienced Driver Trainers and Coaches with significant high-level National and International experience.

Level 2 courses are scheduled by pre-booking, approximately once a month with a minimum of 10 participants per group.

Participants supply their own vehicle for training which may be subject to scrutineering at the commencement of your course.

Vehicles must be in good condition (internal and external), not leak oil or any fluids and have sufficient fuel, tyre tread and pressure to participate.
